Club Information - Turf Field Replacement Update

Fieldturf is replacing our artificial field due to flaws in the original material.

The old surface was removed on December 6th, the weather this winter has delayed the installation process.

Currently, the new "carpet" is in place. We are now awaiting the weather to improve so that the infill material can be installed. This process should take a few days, the work will resume as soon as the snow melts.

Spring is on the way!

Andrew McDonough Foundation

Responsible Sports

Stay tuned...
