# The innovative natural infill

GEOFILL IS THE BEST INFILL SYSTEM, THE MOST EXPERIENCED NATURAL INFILL PATENTED BY ITALGREEN SPA, MADE OF 100% NATURAL FIBERS: APPROVED BY THE MAIN INTERNATIONAL FEDERATIONS, THANKS TO INNOVATIVE AND UNIQUE PROPERTIES, GEOFILL OFFERS THE ARTIFICIAL TURF SYSTEM AN EXCELLENT NATURAL TOUCH. MOST OF THE FIELDS INSTALLED BY ITALGREEN WORLDWIDE ARE DRESSED WITH GEOFILL TECHNOLOGY.

## Infill

The flagship of Italgreen called Geofill®, the prestigious infill vegetable, thanks to its innovative and unique organic properties, gives the entire system synthetic grass an amazing touch of naturalness.

Constant research and development has meant that Italgreen was the first company in the world to market with a **100% organic infill**: the Geofill®. This infill the company makes most of fields both in Italy and abroad.

Geofill®, after years of painstaking research and development, has been rigorously tested by leading laboratories in the world and, since 2010, officially entered in the Italian professional football with excellent feedbacks from players, coaches and physiotherapists: **Stadio Silvio Piola Novara FC (62 Lesmo Geofill®) Italian Serie A, Stadio**

**Alberto Picco Spezia  
Calcio (62 Lesmo  
Geofill ®) PRO Italian  
League.**

**Geofill ®:** patented infill  
organic Italgreen

Final-Ver.pdf)

**IDEAL BALL BOUNCE  
AND BALL ROLL**

• Tested by the most sophisticated equipments, GEOFILL® enables proper performances in terms of ball bounce and ball roll, competing with the best natural turf pitches.

**REDUCTION OF INJURY RISK**

The best mix between softness and stability, GEOFILL® doesn't originate any abrasion during sliding, reducing impacts for the athlete.
